Division of Pharmacobiology

## ABSTRACT

In order to assess the quality of amikacin injection, ampicillin injection, cefazolin injection and lincomycin injection, 258 samples (58 samples of amikacin injection, 54 samples of ampicillin injection, 99 samples of cefazolin injection and 47 samples of lincomycin injection) were collected from different countries and cities throughout Taiwan area from March to September, 2004. These samples were analyzed by adopting the analysis method as described in the CHP V and USP27 to evaluate the quality of amikacin injection, ampicillin injection, cefazolin injection and lincomycin injection.

The results showed that all samples met the government regulations requirement.

**Key words :** Amikacin Injection, Ampicillin Injection, Cefazolin Injection and Lincomycin Injection
